Section 1

Introduction

The **PMRDA Tree NOC Portal** is an online system for applying, tracking, and approving Tree No-Objection Certificates issued by the Pune Metropolitan Region Development Authority (PMRDA) under the *Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1975*.

1.1 Purpose

Any person or organisation intending to cut, transplant, or uproot trees on their plot/site within PMRDA jurisdiction must obtain a Tree NOC before commencing construction or any site development activity. This portal replaces the manual paper-based process with a fully online workflow covering application submission, document upload, online payment, inspection scheduling, and digital certificate generation.

1.2 Types of NOC

Type	When Required
Provisional NOC	Before construction begins — required along with the building permit application
Final NOC	After construction — required to obtain the Occupancy Certificate (OC)

1.3 User Roles

Role	Description
Applicant	Property owner or authorised representative who files the application
Assistant / Clerk	First-level staff who receives, scrutinises, and registers the application
Superintendent	Senior technical staff who reviews and conducts site inspection

Role	Description
HoD / Authority	Head of Department who gives the final Approve / Reject decision
Super Admin	System administrator who manages users and system settings

Section 2

System Requirements

Item	Requirement
Browser	Google Chrome 110+, Mozilla Firefox 110+, Microsoft Edge 110+
Internet	Stable broadband connection (minimum 2 Mbps)
Screen	Minimum 1024 × 768 resolution
Documents	PDF format, each file not exceeding 5 MB
JavaScript	Must be enabled in the browser

Mobile: The portal is responsive and works on modern Android and iOS browsers, but a desktop or laptop is recommended for filling the application form.

Section 3

Getting Started — Login

3.1 Accessing the Portal

Open your browser and navigate to the portal URL provided by PMRDA (e.g., `https://noc.pmrda.gov.in`).

3.2 Logging In

1. Enter your **Username** and **Password**.
2. Click **Login**.
3. On success you are redirected to your role-specific **Dashboard**.

3.3 Demo / Test Credentials

For testing and demonstration the following accounts are pre-loaded:

Username	Role	Password
`applicant`	Applicant	`Password@123`
`assistant`	Assistant / Clerk	`Password@123`
`superintendent`	Superintendent	`Password@123`
`hod`	HoD / Authority	`Password@123`
`admin`	Super Admin	`Password@123`

> **Important:** These accounts are for demo use only. Remove or change passwords before going live in production.

3.4 Forgot Password

Contact your PMRDA system administrator to reset your password.

Section 4

Applicant Guide

4.1 Dashboard Overview

After login, the Applicant dashboard shows:

- Summary cards — total applications, pending, approved, rejected counts
- Recent applications table with current status
- **New Application** button

4.2 Submitting a New Application

Click **New Application**. The form has **6 steps**:

Step 1 — Applicant Details

Fill in all mandatory fields (marked with `*`):

Field	Description
Applicant Name	Full name of the property owner / applicant
Applicant Address	Complete postal address
Contact Number	10-digit mobile number
Email Address	Valid email ID
Application Type	Select **Provisional** or **Final**
Plot / Survey Number	Survey or CTS number of the plot
Village / Locality	Village or locality name
Zone	PMRDA zone / ward
Total Plot Area (sq.m)	Numeric value

Step 2 — Site Details

Field	Description
Site Address	Complete address of the site/plot
Development Purpose	e.g., Residential Building, Commercial Complex
Architect / Engineer Name	Name of the project architect or licensed engineer
Architect / Engineer Reg. No.	Professional registration number

Step 3 — Tree Inventory

List all trees on the plot proposed to be **cut**, **transplanted**, or **retained**.

1. Click **Add Tree**.
2. Fill in: Common Name, Botanical Name, Girth (cm), Height (m), Canopy Spread (m), Age (years), Condition, and Action (Cut / Transplant / Retain).
3. Click the **Save** (✓) icon.
4. Repeat for each tree.

> At least one tree must be added before proceeding to Step 4.

Step 4 — Undertaking

Read the undertaking declaration carefully. Tick the checkbox **"I agree to the above undertaking"** and click **Next**.

Step 5 — Document Upload

Upload the following documents in **PDF format** (max 5 MB each):

Document	Mandatory
Property Card / 7/12 Extract	Yes
Site Plan (to scale)	Yes
Tree Survey Report	Yes
Index / Location Map	Yes
Authorization Letter	Only if applicant ≠ owner
Previous Provisional NOC	Only for Final NOC type

Step 6 — Payment & Submit

The system calculates the fee based on tree actions:

Tree Action	Fee per Tree
Cutting	₹ 500
Transplanting	₹ 200
Retention	No fee

1. Review the fee summary.
2. Click **Proceed to Payment**.
3. Complete payment via UPI, Net Banking, or Card.
4. On success, the application is automatically submitted and a **Reference Number** is displayed.

4.3 Tracking Your Application

From the dashboard click any application or go to **My Applications**. The current status, timeline, and any staff remarks are shown.

4.4 Downloading the NOC Certificate

When the application status is **Approved**:

1. Open the application from **My Applications**.
2. Click **Download NOC Certificate**.
3. The PDF certificate (with a unique QR code) is downloaded.

Section 5

Assistant (Clerk) Guide

The Assistant is the **first point of contact** for submitted applications — scrutinising completeness and registering for further review.

5.1 Dashboard

Shows pending applications, applications under scrutiny, and recently processed items.

5.2 Reviewing a Submitted Application

Click the application in the Pending list. The detail page has tabs: **Details, Tree Inventory, Documents, Payment, Timeline**.

5.3 Scrutiny Checklist

- ☐ All mandatory fields filled correctly
- ☐ Plot/Survey number valid and matches property card
- ☐ Tree inventory complete (girth, height, canopy for each tree)
- ☐ All required documents uploaded and legible
- ☐ Payment received and matches the calculated fee
- ☐ Undertaking agreed by applicant

5.4 Forwarding or Rejecting

To forward: Add remarks → click **Register & Forward to Scrutiny**. Status changes to *Under Scrutiny*.

To reject: Add remarks explaining what is missing → click **Reject**. Status changes to *Rejected* and the applicant is notified.

Section 6

Superintendent Guide

6.1 Queue

Dashboard shows applications with status *Under Scrutiny*.

6.2 Technical Review

Verify: tree inventory accuracy, appropriateness of proposed actions, whether compensatory plantation is required, and site plan vs. tree locations.

6.3 Submitting an Inspection Report

1. Click the **Inspection Report** tab or **Add Inspection Report**.
2. Enter: date of inspection, observations per tree (girth, condition), overall recommendation, and conditions to be imposed.
3. Click **Submit Inspection Report**. Status changes to *Inspection Report Submitted*.

6.4 Forwarding for Final Decision

After the inspection report is submitted, add final remarks and click **Forward for Review** — the application moves to the HoD queue.

Section 7

Head of Department (HoD / Authority) Guide

7.1 Queue

Dashboard shows applications with status *Pending Decision*.

7.2 Reviewing for Decision

Review applicant details, tree inventory, the Superintendent's inspection report, and all uploaded documents.

7.3 Approving

1. Optionally add **Conditions** to be printed on the certificate.
2. Add **Remarks**.
3. Click **Approve**. Status changes to *Approved*.
4. The NOC Certificate PDF is generated automatically; the applicant is notified.

7.4 Rejecting

1. Add clear **Remarks** stating the reason.
2. Click **Reject**. Status changes to *Rejected*.

> **Note:** Rejected applications cannot be reactivated. The applicant must file a new application.

Section 8

Super Admin Guide

8.1 User Management

Navigate to **Admin** → **Users**.

- **Add User:** Click Add User → fill Name, Username, Email, Role, Password → Save.
- **Edit User:** Click the edit icon → update fields → Save.
- **Deactivate:** Toggle the Active switch off — the user cannot log in while inactive.

8.2 Role Assignment

Role Value	Access Level
`Applicant`	Can only file and track their own applications
`Assistant`	Sees all submitted applications; can forward/reject
`Superintendent`	Sees applications under scrutiny; does inspections
`HoD`	Sees all applications in the final review queue; approves/rejects
`SuperAdmin`	Full access including user management

8.3 Reports

The Admin section includes summary reports: applications by status, applications by month, and fee collection summary.

Section 9

Application Status Reference

Status	Meaning
Draft	Applicant started the form but has not submitted
Submitted	Applicant submitted and payment received; waiting for Assistant
Under Scrutiny	Assistant forwarded; Superintendent is reviewing
Under Inspection	Superintendent is conducting site inspection
Inspection Report Submitted	Inspection report filed; waiting to forward to HoD
Under Review	HoD has received the application for final review
Pending Decision	HoD is about to give the final decision
Approved	NOC granted — certificate is ready to download
Rejected	Application rejected — reason in remarks

Section 10

Payment Guide

10.1 Fee Calculation

Tree Action	Fee
Cutting	₹ 500 per tree
Transplanting	₹ 200 per tree
Retention	No fee

> **Example:** 3 trees to cut + 2 trees to transplant = ₹ 1,500 + ₹ 400 = **₹ 1,900 total**

10.2 Supported Payment Methods

- UPI (Google Pay, PhonePe, Paytm, BHIM)
- Net Banking (all major banks)
- Credit Card / Debit Card (Visa, Mastercard, RuPay)
- Mobile Wallets

10.3 Payment Receipt

After successful payment, a receipt is shown on-screen and is always available under the **Payment** tab of your application.

10.4 Refund Policy

Fees are non-refundable once payment is made. If the application is rejected, no refund is issued. Contact PMRDA office for exceptional cases.

Section 11

Document Requirements

Document	Format	Max Size	Mandatory
Property Card / 7/12 Extract	PDF	5 MB	Yes
Site Plan (to scale)	PDF	5 MB	Yes
Tree Survey Report	PDF	5 MB	Yes
Index / Location Map	PDF	5 MB	Yes
Authorization Letter	PDF	5 MB	Only if applicant ≠ owner
Previous Provisional NOC	PDF	5 MB	Only for Final NOC

Tips:

- Scan documents at 150–200 DPI for a good quality/size balance.
- Ensure documents are clearly legible — blurry scans will be rejected.
- All documents must be in **PDF format** only.

Section 12

Frequently Asked Questions

Q: I submitted the form but did not get a reference number. What should I do?

Check the **My Applications** page. If no application appears and payment was deducted, contact PMRDA with your payment transaction ID.

Q: I made a mistake in the form after submitting. Can I edit it?

After submission, the form cannot be edited. Contact PMRDA office with your reference number. An Assistant can reject the application with a note; you can then file a new, corrected application.

Q: How long does the process take?

Typically 15–30 working days from submission, subject to inspection scheduling and workload.

Q: My application has been in "Under Scrutiny" for a long time. Who should I contact?

Note your reference number and contact the PMRDA Tree Department office in person or by phone.

Q: Can I apply for both Provisional and Final NOC in the same application?

No. Each NOC type requires a separate application.

Q: How do I verify the authenticity of a NOC certificate?

Scan the QR code on the certificate using any QR scanner app. It will display the application details from the PMRDA portal.

Section 13

Deployment & Technical Notes

> This section is for system administrators and IT staff.

13.1 Technology Stack

Component	Technology
Frontend	Angular 22 (standalone components, signals)
Backend API	.NET 10 Web API + Entity Framework Core 10
Database	Microsoft SQL Server 2019+
Authentication	JWT Bearer (8-hour expiry)
File Storage	Local filesystem (`wwwroot/uploads/`)

13.2 Deployment Steps

1. **Database:** Run `PMRDA_NOC_Database.sql` against the target SQL Server instance.
2. **API + Frontend:** Copy the `deploy/` folder to the server.
3. **Connection string:** Edit `deploy/appsettings.json` with your server credentials.
4. **Start the API:** `dotnet PMRDA.Api.dll` or configure as IIS / Windows Service.
5. **Browse** to `http://<server-ip>:<port>` — the .NET API serves the Angular frontend from `wwwroot/` .

13.3 Connection String Format

```
{
  "ConnectionStrings": {
    "Default": "Server=<HOST>;Database=<DB>;User Id=<USER>;Password=<PA
  },
  "Jwt": {
    "Key": "<change-to-a-long-random-secret>",
    "ExpiryHours": 8
```

```
    }
}
```

> **Security:** Change the JWT key before going live. Never commit `appsettings.json` with real credentials to source control.

13.4 Default Admin Account

Username	Password	Role
`admin`	`Password@123`	SuperAdmin

> **Change this password immediately** after the first login in the production environment.

For support, contact the PMRDA IT helpdesk or Krios IT Services.
